## The Israeli Settlement Project and the Plundering of WB Natural Resources

By Adv. Michael Sfar

1. The Israeli settlement project: definitions and figures -
  - i. Settlements;
  - ii. Outposts;
  - iii. Industrial zones;
2. The international law prohibition on transfer of population from the occupying power to the occupied territory – the rule and its rationale.
3. The ever-growing nature of Israeli settlements: construction, planning and violence.
4. Separate laws - applying Israeli law to settlers:
  - i. The "enclave law" technique;
  - ii. Extra-territorial application of Israeli law;
5. Israeli Quarries in the WB – data.
6. International legal protection of natural resources in occupied territories:
  - i. Humanitarian law: The duty to safeguard the capital of public property; the principle of continuity;
  - ii. Human Rights law: The permanent sovereignty of peoples over their natural wealth and resources;
